

GP Lismore superclinic

33-35 Rous Rd, Goonellabah, Lismore 2480.

GP position/s available

Lismore GP Super Clinic (LGPS) seeks applications from doctors wishing to commence/transfer their practice to our newly refurbished GP Clinic without the stress of managing clinic politics – let us do that for you so you can concentrate on delivering optimal care to your patients.

Lismore GP Super Clinic is a fully accredited Family Medical Practice which prides itself on the robust delivery of primary and preventative healthcare to its base of 12,000 patients. It has been operational since March 2007, with a recent major refurbishment completed in September 2014.

We currently have 6 GPs (4.5 FTEs) with a 7th GP joining the team soon.

Lismore is now registered as an Area of Workforce Shortage.

LGPS Centre is also home to QML Pathology, Dr Steven Rodwell (Ophthalmologist), Bytes Dental (a 5 chair dental

practice) and RECOVRE (a workplace accident rehabilitation centre). We also deliver in-house Allied Health Services including Podiatry, Psychology, Dietician, Orthotist, Hearing and Exercise Physiology, as well as a Women's Health Clinic.

There is an area allocated for a Pharmacy (subject to meeting applicable Pharmacy Location Rule requirements).

It is anticipated that a successful applicant doctor will be allocated a dedicated nurse to maximise the doctor's time-efficiency and healthcare delivery with a patient. A combination of in-clinic practice hours can be offered (full-time, part-time, normal hours, after-hours, weekends etc). If you have an interest in real *coal face* medicine, and working with patients to enhance their health outcomes, this is the Clinic for you.

All initial enquiries will be treated with the utmost confidence, firstly by email to the Practice Manager – Terese Forzan: terese.forzan@lismoregpsc.com.au
